No. 85-75

TITLE/SIGNIFICANCE:

Identification of three new-types of communications systems in the Central USSR

COMMENT: BIG DISH - A [] solid parabolic antenna. This antenna appears similar to the R-60/120 parabolic antenna, except for the larger diameter. LEAN SCREEN - An [] vertically mounted, cut-parabolic antenna. WIDE SCREEN - [] horizontally mounted, cut-parabolic antenna which appears to be the same as the LEAN SCREEN, except for the plane in which it is mounted. These antennas may be deployed in other regions of the USSR besides the Central USSR.
